Project Title	AI Adoption and Impact in Global Education
Maximum Marks	2 Marks

Data Collection Plan & Raw Data Sources Identification Template

Elevate your data strategy with the Data Collection plan and the Raw Data Sources report, ensuring meticulous data curation and integrity for informed decision-making in every analysis and decision-making endeavor.

Data Collection Plan Template

Section	Description
Project Overview	The project will use the project-provided global AI-in-education dataset as the primary raw data source. The dataset will be inspected and prepared for analysis of student and teacher AI usage, school adoption, daily usage time, internet penetration, education index, government policies, AI tools, countries/regions, and demographic factors.
Data Collection Plan	Primary raw source: the project dataset containing global AI-in-education indicators. Additional sources may be used only if required to validate or supplement fields such as internet penetration, education indicators, or government policy information.
Raw Data Sources Identified	List the raw data sources with relevant details (as a short description).

Raw Data Sources Template

Source Name	Description	Location/URL	Format	Size	Access Permissions
Project Global AI in Education Dataset	Primary dataset for analyzing AI adoption and usage in education across countries, regions, and demographic groups. Expected fields include student/teacher usage, school adoption, daily usage time, internet penetration, education index,	Project-provided dataset; URL not provided	CSV / Excel (to confirm)	To confirm	Project team access

	government policies, and AI tools.				
Supplementary Source – Internet / Education Indicators	Potential supplementary source for validating or filling infrastructure and education indicators such as internet penetration and education index, if these fields are missing or require external verification.	To be identified if required	CSV / Excel / Web data	To confirm	Public or authorized access
Supplementary Source – Government AI Policies	Potential supplementary source for validating government AI policy information and supporting country-level policy comparisons, if required by the analysis.	To be identified if required	CSV / Excel / Web data	To confirm	Public or authorized access

Note: The template requires source URL, format, and size. These details are marked 'To confirm' where the actual dataset/source information was not provided, so no unverified URL or dataset size has been invented.
